

La mano che entra in contatto con questo materiale unico nel suo genere, rimane stregata dalla sua morbidezza. Il tatto prima di tutto ma anche la possibilità di scegliere il colore che più appaga e di ridefinire forme e dimensioni ben oltre i limiti dell'ordinario. In-Touch asseconda la creatività e soddisfa le esigenze più estreme, può essere un tappeto così come una pavimentazione. L'ampia palette colori prevede quindici colorazioni in tinta unita.

In-Touch Campiture, si caratterizza per uno speciale intarsio a mattonella, che ricorda le pavimentazioni delle piazze Italiane, in cui i campi di colore sono separati da delicati solchi scolpiti nel vello del tappeto. Il nuovo modello In-Touch Nuance è presentato in tre colorazioni in cui i colori si combinano intimamente tra loro con un effetto nuance, perfette da abbinare in qualsiasi contesto, dal più classico al più moderno. Le collezioni In-Touch sono realizzate in Tencel, una delle fibre più ecocompatibili attualmente in commercio, ottenuta da fonti facilmente rinnovabili, grazie ad un processo produttivo a basso impatto ambientale da cui si ottengono filati morbidi, leggeri e traspiranti che sono anche biodegradabili in quanto derivati della cellulosa.

The feeling of this special fabric rewards the hand with a unique tactile experience; an incomparable sensation of exceptional softness. This sense of touch is central, but also the chance to select the colour that will fulfill your desire, redefining shapes and dimensions above and beyond the ordinary.

In-Touch meets the most creative and extreme requirements. It can function as an area rug or as wall to wall flooring. The wide palette of colours includes fifteen colourations in solid colour. In-Touch Campiture is a rug woven with a special brick-like pattern. It was inspired by the paving typically found in Italian piazzas; the blocks of colour are separated by delicate grooves created in the body of the rug.

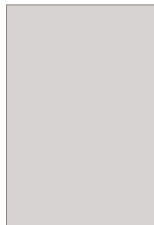

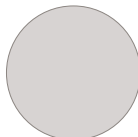

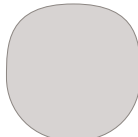

The new model In-Touch Nuance is presented in three colourations in which colours combine intimately with each other with elegant shading, perfect for every ambience, from the classical to the modern. In-Touch collections are produced in Tencel, one of the most eco-compatible fibers on the market at present. It originates from easily-renewable sources, and through a production process with a low environmental impact, the resulting cellulose-derived fibers are soft, light, transpiring and biodegradable.

Materiale: tencel
Struttura: taftata a mano
Dorso: è consigliato l'utilizzo del sottotappeto G.T.Design
Dimensioni: variazioni del +/- 3% sono considerate nella norma
Manutenzione: battitappeto potenza minima prestando attenzione ai bordi
Lavaggio: consigliato lavaggio professionale
Spessore: 16 mm

Material: tencel
Structure: hand tufted
Backing: we advise using a G.T.Design anti-slip undermat
Dimension: variations of +/- 3% are to be considered the norm
Maintenance: vacuum cleaner on a low setting taking care on the edges
Washing: professional cleaning recommended
Thickness: 16 mm
