

La storia di In-Touch Nuance. Questo tappeto è tutta una questione di tatto, colore e sostenibilità. Taftato a mano in Tencel™, una delle fibre più eco-compatibili attualmente sul mercato. Ottenuto da un processo di produzione a basso impatto ambientale, da cui si ottengono fibre derivate dalla cellulosa, morbide, leggere, traspiranti e biodegradabili. L'esperienza tattile offerta da questo tessuto super-morbido non ha paragoni.

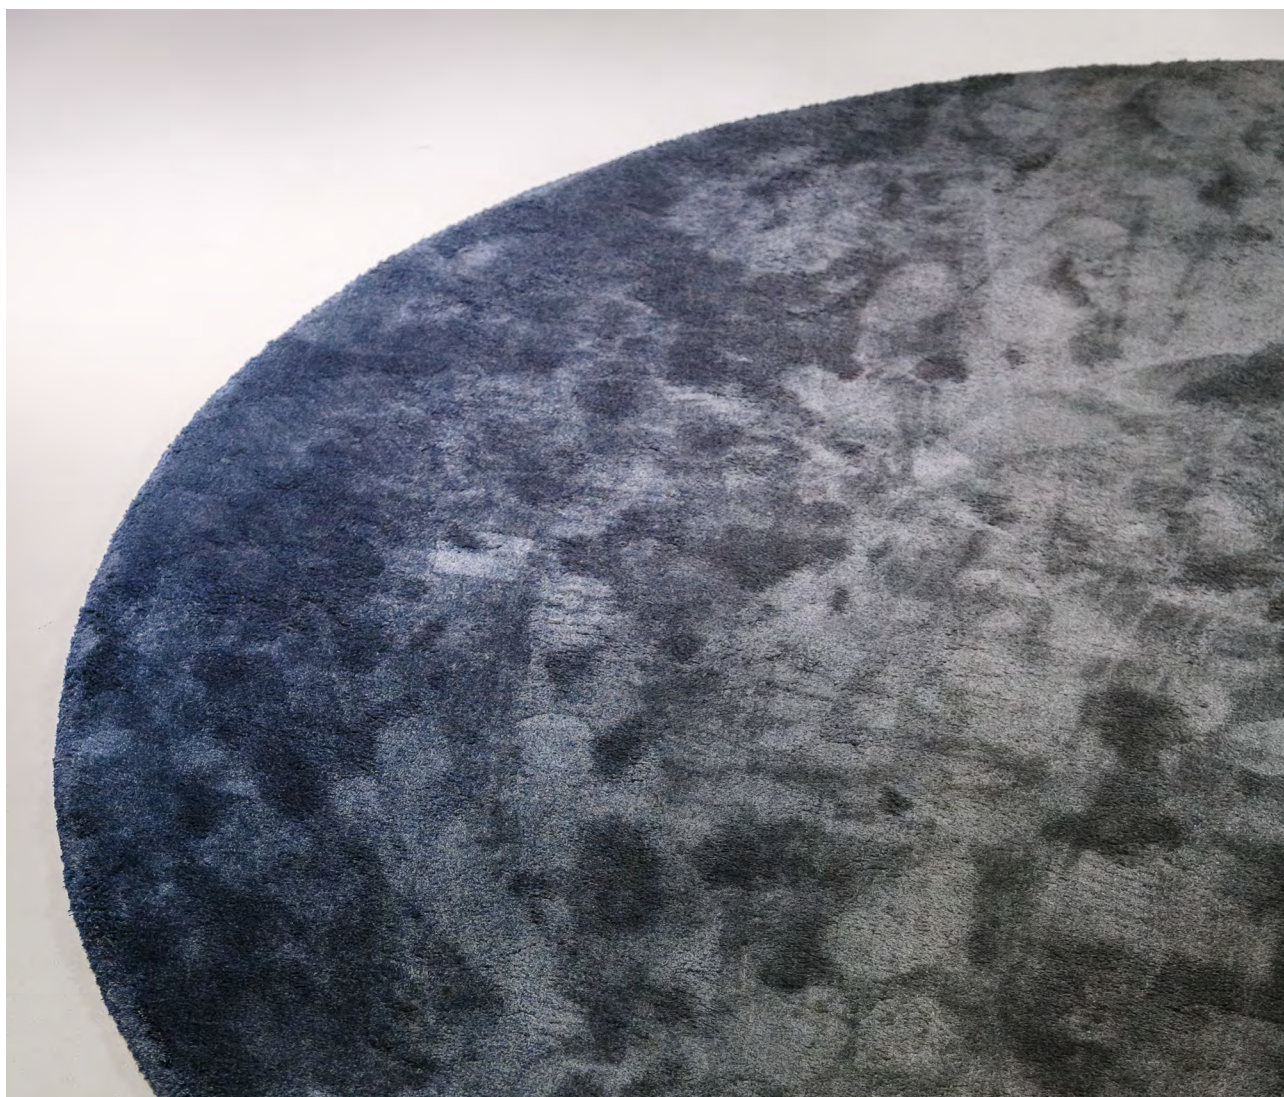

Originale e su misura. Nella versione In-Touch Nuance i colori si combinano delicatamente tra loro per produrre effetti sfumati in dégradé. È possibile personalizzare colori, forme e dimensioni fino ad un massimo di 12 m di larghezza.

Dove utilizzarlo. Ovunque si desideri un pavimento che aggiunga colore, calore, lucentezza e morbidezza. Come tappeto singolo dalla zona giorno alle camere da letto, così come studi e camere per bambini o come pavimentazione tessile per intere aree residenziali. In-Touch Nuance è stato progettato per aggiungere bellezza e morbidezza in qualsiasi ambiente venga utilizzato.

The story of In-Touch. This rug is all about touch, color and sustainability. Hand-tufted in Tencel™, one of the most eco-friendly fibers on the market today. Obtained from readily renewable sources, and through an environmentally friendly manufacturing process, the resulting cellulose-derived fibers are soft, lightweight, breathable and biodegradable. There is no comparison to the tactile experience offered by this super-soft fabric.

Original and bespoke. In the In-Touch Nuance version colors are delicately combined to produce a watercolor effect. It is possible to customize colors, shapes and sizes up to a maximum width of 12 m (39'4" ft).

Where to use it. Anywhere you want a floor that adds color, warmth, shine and softness. As a single rug from living areas to bedrooms, as well as studies, and children's rooms, or as rug tiles for entire residential areas. In-Touch Nuance is designed to add beauty and softness in whatever environment it is used.

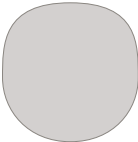

Materiale: tencel™
Struttura: taftata a mano
Dorso: è consigliato l'utilizzo del sottotappeto G.T.DESIGN
Dimensioni: variazioni del +/- 3% sono considerate nella norma
Manutenzione: battitappeto potenza minima prestando attenzione ai bordi
