

Evoluzione del tema stuoia, Textures è una collezione di tappeti a base lana tessuti su telaio meccanico, flessibili e resistenti, che consente la creazione in dimensioni custom e wall to wall, utilizzabili sia in ambientazioni residenziali che contract.

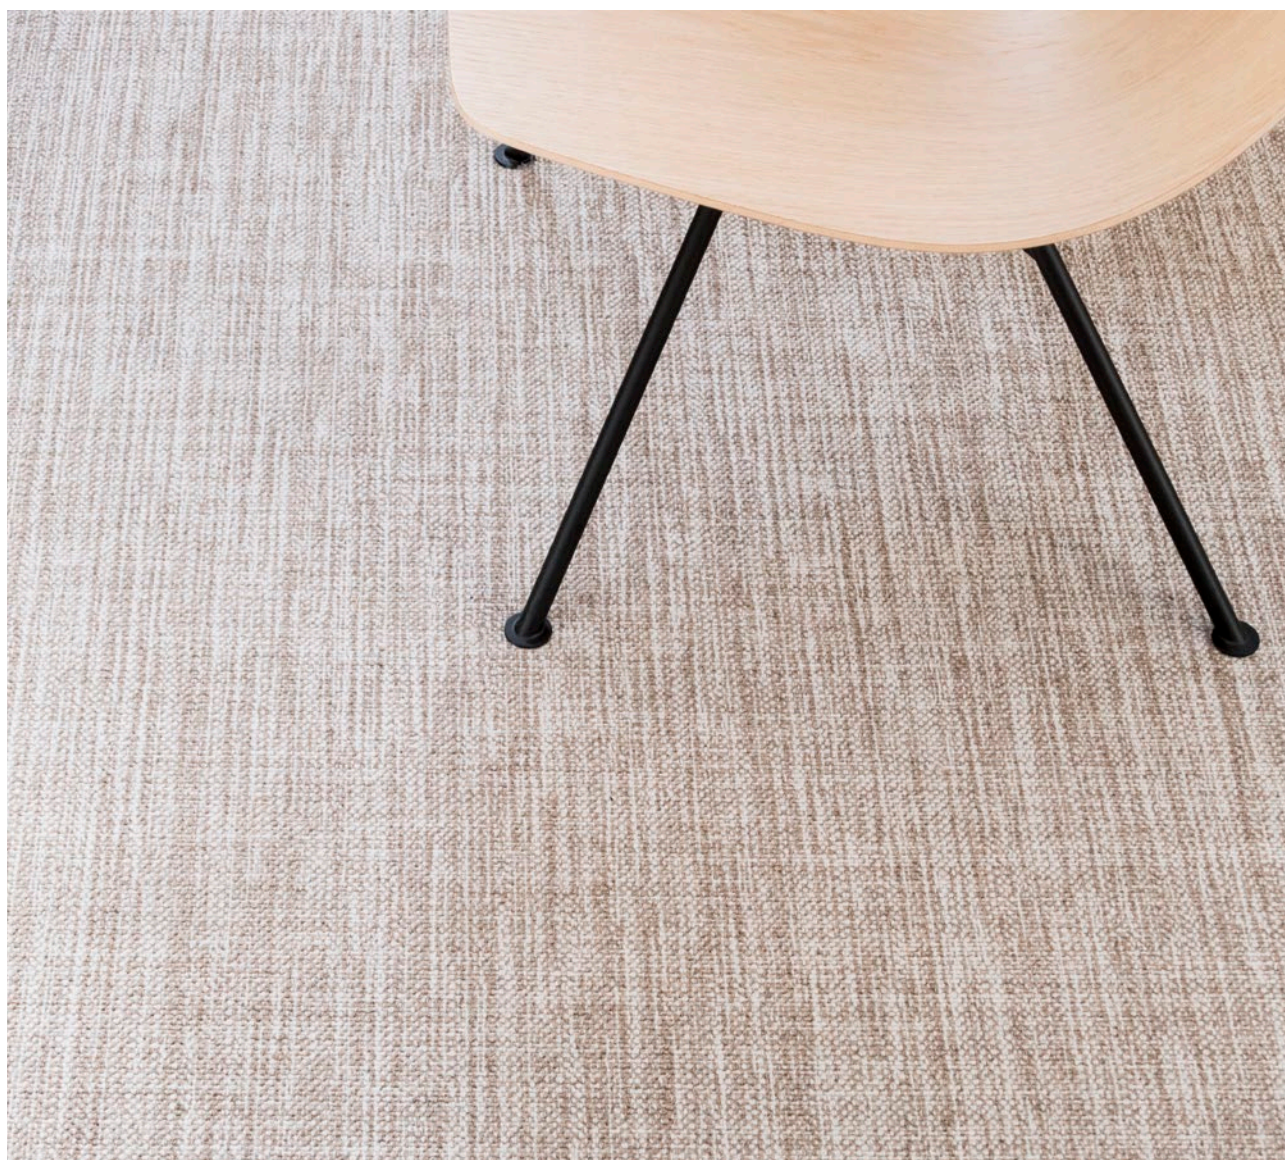

Nella versione Millerighe in 100% lana della Nuova Zelanda, come nel classico tessuto a fitte righe, il tappeto ha trame battute in modo ritmico, eseguito con filati fiammati accoppiati in gruppi regolari.

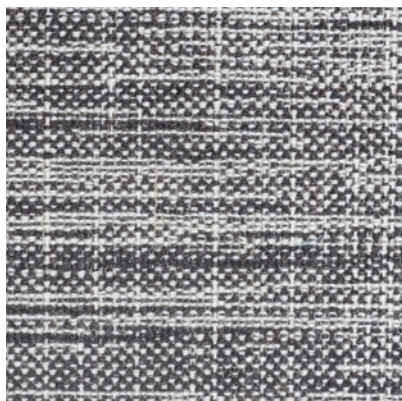

Nei modelli Tweed si rinnova la tradizione dei tessuti in lana a trama larga, grazie all'aggiunta di un filo interlacciato in poliestere brillante, in cui le coloriture si ispirano alle gradazioni dei metalli. Un tessuto di sapore sartoriale, che permettere ai fili in fantasia di lana e poliestere di grosso spessore, di intrecciarsi morbidamente a creare un elegante intreccio materico.

The straw mat has evolved into Textures, a collection of rugs created with wool woven on a mechanical loom; the rugs are flexible and resistant, and custom measurements and wall to wall versions are available on request, the perfect solution for residential and contract requirements.

The Millerighe version, in 100% New Zealand wool, is a classical weave with narrow lines; the rug unfolds with a rhythmic pattern, created with flamed twisted yarn into even-sized groups.

In the model Tweed, there is a return to the tradition of broad striped woollen weaves, thanks to the addition of an interlaced yarn in silky polyester, in which the colorways are inspired by metallic shades. The rug has a tailormade personality with wool and polyester yarns entwined softly to produce an elegant textured weave.

Materiale: lana Nuova Zelanda
Struttura: tessuta su telaio Wilton
Dorso: è consigliato l'utilizzo del sottotappeto G.T.Design
Dimensioni: variazioni del +/- 3% sono considerate nella norma
Manutenzione: battitappeto potenza minima prestando attenzione ai bordi
Lavaggio: consigliato lavaggio professionale
Spessore: 4 mm

Material: New Zealand wool
Structure: woven - Wilton machine
Backing: we advise using a G.T.Design anti-slip undermat
Dimension: variations of +/- 3% are to be considered the norm
Maintenance: vacuum cleaner on a low setting taking care on the edges
Washing: professional cleaning recommended
Thickness: 4 mm

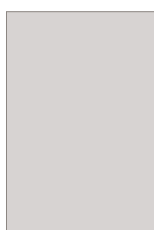

Flame resistance: Bfl-S1
